INDUSTRIAL KEENES CEMENT

Industrial KEENES Cement is a high strength, white gypsum cement used for an interior finish when an extremely hard, dense surface is required.

It is the only gypsum plaster that can be retempered and is available from our Southard, Oklahoma plant in two types - Industrial KEENES Cement and Industrial KEENES Cement - Quick Set.

INDUSTRIAL PHYSICAL PROPERTIES

	<u>REGULAR</u>	<u>QUICK TROWELING</u>
Mortar Consistency - cc	37 - 42	37 - 42
Vicat Set: Hand Mix - hours	0:35 - 1:30	0:10 - 0:20
Final Gilmore Set - hours	2:00 - 3:00	0:50 - 1:20
Fineness:		
on 30 Mesh, Maximum - %	0.1	0.1
Surface Area - cm ² /gm	7000 - 8500	7000 - 8500
Compressive Strength:		
Dry, Minimum-psi	5000	5000
